

Quarterly report to NGT

Status of compliance of the directions of the NGT as on 28.02.2023.

#	Direction from NGT	Status of compliance
1	<p>i. Prepare the design for both short term and long term measures suggested by NEERI through competent and expert developers/contractors with suitable time frame for completion and presenting the design to the KSPCB for its approval/further direction, within three months from the date of Judgment (31.08.2017).</p>	<p>KITCO was awarded the work for DPR preparation for both short term and long term measures suggested by NEERI and report submitted to KSPCB on 20.07.2018 for approval. After the meeting with chairman, KSPCB on 10.12.2018, approval letter received from KSPCB dated 07.01.2019. Following measures were suggested.</p> <ul style="list-style-type: none">• Construction of garland drain around the iron oxide/ETP ponds: Time frame -12 months from the date of award of work.• Remediation of affected land near KMML premises: Time frame - 2 to 3 years.• Solid waste management in KMML (Insitu/Exsitu storage). As an alternative/ cost effective method, the containment of iron oxide in geotubes was proposed by KMML. The new technology involves dewatering and storage of solid waste using GEOTUBES which was presented to KSPCB in the meeting held on 10.12.2018.
	<p>ii. Implementation of the measures after receipt of approval from the KSPCB within the time frame proposed for completion.</p>	<p>a. After open e-tendering work order for the construction of Garland drain around new ETP/IOP and old ETP/IOP was issued to M/s Ravi Kumar & M/s Biohomes on 08.10.2019 and 08.04.2021 respectively. The period of contract was extended due to events viz. adverse climatic condition, restriction imposed as part of pandemic COVID19 lock down, local labour issues, ETP sludge shifting process etc. The works are now progressing at</p>

site. More than 75% of garland drain work around New ETP and 35% around Old ETP have been completed. Updated Time frame for completion is May 2023 around new ETP and August 2023 around old ETP/ IOP.

b. E-Tender was invited for the Test patch for remediation of contaminated area inside KMML premises and its consultancy works on 09.07.2019. No parties quoted. Action for limited tender for consultancy work taken on 07.08.2019. Two parties quoted the tender. Work order was issued to M/s FEDO on 05.12.2019 for consultancy and supervision of the test patch area for contaminated land in KMML premises.

M/s FEDO have submitted a detailed project report with schematic drawing and lay out of the contaminated land remediation work. Tendering for test patch done in three occasions i.e, 25.02.20 (only single offer received), 24.06.2020 & 19.08.2020 (no party quoted).

Due to non receipt of offers, action for doing the activity on trial basis has been initiated. Accordingly Land preparation for land remediation sample Test patch area development activities started on trial basis inside KMML. Time frame set is one year (May2023). E-tender inviting activities are in progress.

C. Considering the constraint for shifting the entire quantity of sludge to newly proposed containment system and limitation of vacant land availability, another technological option was identified by KMML through US based Titanium technology consultant.

The new technology involves dewatering and storage of solid waste using GEOTUBES which was presented to KSPCB in the meeting held on 10.12.2018. In principle approval was received and directed to

		<p>submit details of the proposal. Tendering action for the Geotube iron oxide containment from New elevated iron oxide pond was done during Oct 2021 and bid time also extended as per the request from vendors.</p> <p>Subsequently, Geotube suppliers had intimated KMML to get environmental clearance to submit offer for the tender. KMML submitted a request letter to KSPCB on 23/02/22 for Environmental clearance approval to go ahead with the collection and containment of Iron oxide slurry in Geotubes from the elevated new iron oxide pond as trial phase activity. Dewatered Iron oxide solids can safely be transferred to offsite after the containment. A presentation of solid waste management using Geotubes was conducted at the chamber of Chairman, KSPCB on 16/05/22 and 14/10/2022. KMML officials visited CPCB, New Delhi on 28/11/2022 and handed over the request letter for obtaining authorization for conducting trial Geotube filling and containment of iron oxide from new elevated iron oxide pond. VC meeting/ technical presentation was conducted on 03.01.2023 with CPCB officials and queries were addressed, awaiting clearance.</p> <p>Work can be started only with the technical concurrence of CPCB/ KSPCB and KMML Board approval.</p>
2&3	There is no necessity for transporting the waste from KMML to KEIL at Kochi, since the wastes are non-hazardous in nature as studied and reported by NEERI as per the HWMH rules.	Disposal of iron oxide to Ms/ KEIL stands discontinued from 07.08.2014.
4	The material produced by KMML is non radioactive in nature as per the report of AERB. However, KMML shall scrupulously implement those recommendations of the AERB for storage of tailings of mineral separation.	The sand tailings generated at the Mineral Separation unit is disposed only as per the direction of AERB.

5	<p>i. KMML is directed to prepare an appropriate scientific scheme for remediation of contaminated soil or ground water as recommended by NEERI through an expert/contractor with specific time frame and submit the same to the KSPCB for approval, within three months from the date of Judgment (31.08.2017) and complete the necessary project within the time frame specified subject to the approval from KSPCB.</p>	<p>E-Tender was invited for the Test patch for remediation of contaminated area inside KMML premises and its consultancy works on 09.07.2019. No parties quoted. Action for limited tender for consultancy work taken on 07.08.2019. Two parties quoted the tender. Work order was issued to M/s FEDO on 05.12.2019 for consultancy and supervision of the test patch area for contaminated land in KMML premises.</p> <p>M/s FEDO have submitted a detailed project report with schematic drawing and lay out of the contaminated land remediation work. Tendering for test patch done in three occasions i.e, 25.02.20 (only single offer received), 24.06.2020 & 19.08.2020 (no party quoted).</p> <p>Due to non receipt of offers, action for doing the activity on trial basis has been imitated. Accordingly Land preparation for land remediation sample Test patch area development activities started on trial basis inside KMML. Time frame set is one year (May 2023).KMML has initiated action for reappointing M/s FEDO as Project Consultant for Test patch area inside KMML. Discussion with M/s FEDO are in the final stage and approval awaiting.</p>
	<p>ii. KMML shall continue to supply adequate potable water to the people residing in and around its industrial premises until the projects of soil remediation and ground water remediation is completed fully.</p>	<p>ii. KMML is supplying about 7 to 8 Lakhs liters/day drinking water of potable quality to the local residents and shall continue to supply as directed.</p>
6	<p>i. The soil/water remediation process as suggested by NEERI is the independent responsibility of KMML. KMML is directed to deposit a sum of Rs. 1 Crore under the principle of "polluter pays" in favour of Chairman, KSPCB, who shall keep the said amount in a separate account named as "Environment relief fund for remediation of Chavara region due to pollution caused by KMML". The said amount to be managed by the Chief</p>	<p>DD for Rs. 1 Crore is remitted in the name of Chairman, KSPCB on 21.09.2017.</p>
